Case: Black Aluminum w/ comb. lock
Size: 13" L x 18" W x 6.5" H
Weight: 20 lbs. (9.1 kg)
Power: 100-250 VAC 50/60 Hz
Power Consumption: .92Amps @ 120V
.46Amps @ 240 V
Minimum Display Reading: .0001%
Maximum Display Reading: 999%
Sample Flow Rate: 1 CFM (28.3 SLPM)

Available Options

Probe Extension - 11 foot length
Spare Parts Kit

Graphical Display

Multi-function Probe

- The PH-4 is the most highly advanced aerosol photometer available today. The PH-4 utilizes a high resolution graphics display providing an easy to read panel display. The extremely simple menu-driven software system utilizes command prompts to inform the user of each setup process. The powerful microprocessor provides control of numerous functions, not available on any other aerosol photometer.
- The PH-4 plug and play probe is light weight and features remote control of alarm options (includes a visual, audible, and the *NEW INNOVATIVE VIBRATING* alarm). The machined aluminum housing and heavy duty metal connector to the main unit provides years of trouble-free use.
- Other features include a detachable shoulder strap, and cabinet storage for the probe.
